Comprehensive School Counseling Program
Introduction

The Orting School District’s Comprehensive School Counseling Program advocates for students' social/emotional, career, and academic development by aligning with the American School Counseling Association (ASCA) Framework and the Senate Bill 5030.

Please visit the link to learn more about the School Counselor's Role. In the 2022-2023 school year, our school counselors are: Orting Primary School-Megan Barbara, Ptarmigan Ridge Elementary-Rebecca Edick, Orting Middle School-April Reynolds and Robin Joy, Orting High School-Anna Hager, Maria Reyes, Penny Nelson-Schlegel, and Shelly Smith.

Define

Orting School District School Counselors align with ASCA student and professional standards.

Students Standards
ASCA Student Standards

Professional Standards
ASCA Professional Standards ASCA Ethical Standards

The Orting School District School Counseling Program aligns with the Washington OSPI SEL Standards.

Orting School Counselors Align with ASCA Beliefs:

- M1. Every student can learn, and every student can succeed.
- M2. Every student should have access to and opportunity for a high-quality education.
- M3. Every student should graduate from high school prepared for postsecondary opportunities.
- M4. Every student should have access to a school counseling program.
- M5. Effective school counseling is a collaborative process involving school counselors, students, families, teachers, administrators, other school staff and education stakeholders.
● M6. School counselors are leaders in the school district, state and nation.
● M7. School counseling programs promote and enhance students’ academic, career, and social/emotional outcomes.

Manage

Mission Statement

The mission of the Orting School District Comprehensive School Counseling program, in collaboration with other educators, parents/guardians and community stakeholders is to provide a comprehensive, developmental counseling program. Our program addresses the academic, personal/social, and career development of all students and ensures that they are self-directed, life-long learners who are college and career ready.

Vision Statement

Through participation in the comprehensive school counseling program, all Orting School District students will...

● Fully engage in lifelong learning and exploration of their post-secondary pathways.
● Persevere through new and challenging experiences that expand their worldviews.
● Build meaningful compassionate relationships with respect to diversity.
● Foster a sense of individual responsibility, self-worth, and resiliency.
● Develop agency in order to become contributing members of their community.

Beliefs

1. Our comprehensive school counseling program is student-centered, data-informed, and uses ASCA best practices.
2. All students will have access to high quality K-12 school counseling services.
3. All students, parents, & educators work together to promote student success, with the attitudes, knowledge and skills to be prepared for post-secondary pathways.
4. We believe in cultivating a positive environment where mutual respect and individual responsibility are learned and practiced.
5. We believe in providing opportunities for an equitable and inclusive learning environment.
6. Our school counselors adhere to the ASCA Ethical & Professional Standards.
Program Planning

The Orting School District K-12 Counseling Team delivers and coordinates a Comprehensive School Counseling Program (CSCP) across three domains:

A. Social/Emotional Development: Strategies and activities to support and maximize each student’s ability to manage emotions, learn and apply interpersonal skills, and maintain positive mental health.

B. Academic Development: Strategies and activities to support and maximize each student’s ability to think critically and creatively, engage in their learning, access rigorous coursework, and make informed decisions.

C. Career Readiness: Strategies and activities to support and maximize each student’s ability to understand the connection between school and the world of work; plan for and make a successful transition from school to postsecondary education and career, and from job to job across their lifespan.

Direct and Indirect counseling services will be delivered by school counselors. Some services in the Comprehensive School Counseling Program (CSCP) will be coordinated or supported by counselors but delivered by other school staff.

These counseling services are aligned with national standards:

ASCA’s Student Mindsets and Behaviors Standards

Counseling services are delivered as part of a tiered system of supports that include Tier 1, Tier 2, and Tier 3:

Tier 1 counseling programs are provided to all students across the district.

Tier 2 is additional support, in addition to Tier One, to address identified deficiencies, missed opportunities, or needs within groups of students.

Tier 3 is intensified, short-term support for a few students. Tier Three may be appropriate for students who:

- Continue to demonstrate a high level of need and exhibit barriers to learning after receiving Tier 2 interventions
- Experience a crisis
- Transfer to the school with data that position them as having a high need for Tier 3
- Need individual counseling or other short-term crisis response
- Need referrals to outside resources

Please see the graphic on the next page for an illustration of our tiered support system across the three domains of academics, college/career, social/emotional.
In fulfillment of the requirements of bulletin 083-21-EEEL, SEPP.
Delivery

Direct Student Services
OSD school counselors utilize instruction, appraisal & advisement, and counseling to address social/emotional, academic, and career domains to improve student achievement, attendance and discipline.

Instruction
- Classroom instruction
- Small group instruction
- Individual instruction

Appraisal & Advisement
- Appraisal is the analysis and assessment of student abilities, interests, skills and achievement.
- Advisement is the recommendations based on appraisal of assessments, inventories and other data to help students make decisions for their future.

Counseling
- Short term individual and group school counseling to promote academic, career and social/emotional development.
- Crisis counseling

Indirect Student Services
- The interactions between school counselors and stakeholders to advocate for all students.

Consultation
- Share strategies to support student success with families, teachers, other educators and community organizations.

Collaboration
- Creating partnerships with families, administrators, teachers, school staff, businesses, and community organizations.

Referrals
- When a student needs support beyond short term services or school counseling, OSD counselors will provide resources within the school and community.

**Process for Identifying Student Needs**

Counselors will identify student needs through multi-level school data review and analysis. School counselors will incorporate the following tools and strategies into their process.

A. Use-of time data: At least annually, counselors will complete a 5-day time study that provides a breakdown of the time spent providing direct and indirect student services, program planning and school support, and non-school counseling tasks. ASCA provides a ‘Use of Time 5 Day Calculator’ for this time study. **At least 80% of a school counselor’s time is to be dedicated to direct and indirect counseling services for students.**

**Suggested Use of Time for School Counselors (ASCA National Model, 4th Ed. (2019):**

<td>15%</td>
<td>25%</td>
</tr>
</tbody>
</table>
A. Program results data

Counselors will collect data that:

1. Documents that instruction was delivered as planned, all students were served, and the impact of the services delivered.
2. Informs improvement of future activities and interventions to better meet students’ needs.
3. Provides an analysis of disaggregated data supports advocacy for systems change and closing opportunity gaps. (ASCA provides a report template for Closing the Gap Results Report).
4. Informs planning for use of time. The best use of the school counselor’s time should be identified through data analysis and annual student outcome goals.

As with all interventions, results from school counseling activities take time and concerted, sustained effort to see positive results. It should be expected that outcome data will fluctuate due to the many factors that influence students’ feelings, behavior, and school performance.

B. Data will be provided regarding communications with administrators, parents, students, and stakeholders. Counselors may include the following information in the Annual Administrative Conference:

- Engagement with school and community stakeholders
• Communication with students and families; assuring communications are accessible for multilingual families
• Effective and regular communication with school counselor(s) and building administrator(s)
• This multi-level school data review and analysis process aligns with existing school and district Multi-Tiered Systems of Support (MTSS) data-based decision-making processes.

Annual Student Outcome Goals (Closing the Gap)
The school counseling program will identify at least two Annual Student Outcome Goals from student achievement, attendance, and/or discipline data and will align with the school's improvement plans.
Annual Student Outcome Goal Template

School Data Summary
The school counseling program will utilize data to guide and implement our comprehensive school counseling program. The school summary includes a review of data to guide school counseling goals and priorities
School Data Summary Template

Program Results Data
Data will be continually collected and analyzed to improve and implement the school counseling program.
Closing the Gap Action Plan/Results Report Template

Action plans
The Orting School District counseling team will design and implement instruction aligned to the ASCA Mindsets & Behaviors for Student Success in classroom, group, and individual settings. To efficiently and effectively deliver the school counseling program requires intentional planning, which is facilitated by developing action plans.
Action Plans Template

Lesson plans
It is imperative to give enough time and thought about what will be delivered, to whom it will be delivered, how it will be delivered and how student attainment of the lesson's plans goals will be assessed. Orting School District CSCP utilizes ASCA's lesson plan outline to plan for classroom and group instruction.
Lesson Plan Template
Calendars
School counselors develop and publish calendars of school counseling events to inform students, families, teachers, administrators, and stakeholders of coming events. Communication regarding calendar events may be published via:

- Friday newsletter
- Google Classroom
- Remind
- Parent Square/Skyward
- Email/phone

Annual Calendar
A minimum of 80% of time recommended for direct and indirect student services and 20% or less in program planning and school support/fair share activities.

Use of Time
School Counselors will collect data on their use of time using the ASCA template below.

Advisory Council
An advisory council is a representative group of stakeholders selected to collaborate with the implementation of the school counseling program. The council meets at least twice a year and maintains an agenda and minutes for each meeting.

Members of the Advisory Council may include:

- OSD families
- Community Mental Health agencies
- OSTOP Coalition
- Local community member
- School Administrators
- Director of Student Support Services
- OSD School Counselors

Annual Administrative Conference
The annual administrative conference is a formal discussion between school counselors and the administrator in charge of the school counseling program. The discussion can increase an administrator’s understanding of a school counseling program and includes information in the Annual Administrative Conference Template.
Assess

Program Assessment
School counselors engage in regular assessment of their counseling program and the impact of their services for students.
